Workshops:

Burns: Beyond the ABC

Kristina Stiles, Stephen Benbow and Harriet Ashman

British Burns Association and The Katie Piper Foundation

Tuesday 25th June- 13:00 onwards

Theatre 1

Complete EMS Management System

Traumasoft

Tuesday 25th June- 13:00-14:00

Keynote theatre

Wednesday 26th June- 12:40-13:40

Theatre 3

Staff Equality Networks

Kez Hayat + Alistair Gunn

Yorkshire Ambulance Service NHS Trust

Wednesday 26th June- 13:00 onwards

Theatre 1

Demonstration Zone:

GALEN

Penthrox (methoxyflurane) indicated for the relief of moderate to severe pain in conscious adult patients with trauma and associated pain. A patient controlled analgesic distributed in the UK and Ireland by Galen Limited. Please stop by for demonstrations on how to assemble and administer Penthrox to patients, guidance on coaching patients during use of Penthrox and for answers to any other questions you may have around Penthrox's place in emergency medicine.

stryker

The LUCAS Chest Compression system delivers Guideline-consistent, high-quality chest compressions which allows you and your team to work more efficiently and safely. We continue to innovate the LUCAS platform with Wi-Fi® connection to the LIFENET® System. With the LUCAS account in LIFENET, LUCAS 3, v3.1 allows for tailored rates to meet your protocols, alerts configured to improve compliance, Post-Event Reports to your inbox, and asset notifications by e-mail.

Join Stryker for an interactive CPR Challenge!

Can you do manual CPR better than our automated CPR device? Stop by to find out!

Pulmonary®

The Control-Cric is a 3-step surgical cricothyrotomy procedure. Learn how to master your emergency surgical airways with your Pulmonary team. The Control-Cric has been deployed all across the United States in the civilian markets.

Do you have what it takes to be an EMSAirway EXPERT?

**DS
MEDICAL**

Catastrophic Bleeding? How quickly can you save a life? Join DS Medical to try your hand at stopping the bleed to compare products and see what works best

DipHex™
CHEMICAL SAFETY
anticipate accidents and prevent harm

Chemical Burns Decontamination – water is not the only solution: Effective decontamination is key to improving the outcomes for patients with corrosive injuries. This demonstration shows the realities of diluting with water or actively washing with an amphoteric chelating agent – Diphoterine®

Who should attend: paramedics, first responders, police medics, firefighters, emergency medical staff, first aiders, security.

dualgood

Training has never been more real - your Emergency Medical Training is now in Virtual Reality

Dual Good Health has created software that allows you to immerse yourself in a real situation and train your CPR and more advanced medical skills in an easy and engaging way. Programmes demonstrated will include CPR, Basic, Advanced and Paediatric Life support. This unique interactive experience is ideal for you, if you are a paramedic, emergency medical staff, first responder, police medic, firefighter, first aider, security staff, or anyone that is interested in First Aid and related trainings. Join Dual Good Health to test your CPR skills in VR and experience the future of training!
